

MOHAMMED SHAIBAAZ

Frontend Developer mohdshaibaaz1919@gmail.com | github.com/mohammedshaibaaz |

mohammedshaibaaz.github.io

SUMMARY

Frontend Developer focused on building responsive, accessible, and visually refined web experiences. Strong foundation in HTML, CSS, and JavaScript, with hands-on experience creating brand websites, editorial layouts, and full-stack demo applications. Comfortable using modern tooling and AI-assisted workflows while independently designing UI structure, refining interactions, and implementing clean, maintainable code.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (Vanilla)

Layout & UI: Responsive design, mobile-first workflows, CSS Grid, Flexbox, typography, spacing, visual hierarchy

Backend (Demo Projects): MongoDB

Tools: Git, GitHub, Netlify, Vercel, MongoDB Atlas

Practices: Accessibility basics (ARIA, semantic HTML), performance optimization, SEO fundamentals

PROJECTS

Pulse Strength Club — Full-Stack Gym Booking System <https://pulse-strength-gym.vercel.app/>

- Built a full-stack demo gym platform with real-time class booking and capacity tracking.
- Designed and implemented RESTful APIs using Node.js, Express, and MongoDB.
- Implemented CRUD operations for class bookings, input validation, and error handling.
- Integrated email notifications using Nodemailer and event tracking with Google Analytics 4.
- Developed a responsive frontend with booking modals, loading states, and accessibility considerations.

Veltrin — Luxury Watch Brand Website <https://veltrin-luxury-watch.netlify.app/>

- Created a premium digital showroom for a luxury watch brand focused on minimalism and craftsmanship.
- Implemented structured layouts, refined typography, and intentional whitespace to convey a high-end aesthetic.
- Optimized performance with lazy-loaded images and smooth, restrained animations.
- Ensured WCAG-compliant contrast, semantic HTML structure, and mobile responsiveness.

Aurivane — Editorial Fragrance Brand Website

<https://mohammedshaibaaz.github.io/aurivane-editorial-fragrance-site/>

- Developed an editorial-style brand experience structured as narrative chapters for five fragrance products.
- Designed storytelling-driven layouts using atmospheric imagery, content hierarchy, and scroll-based transitions.
- Focused on emotional brand presentation while maintaining responsiveness and performance.

Ember Café — Brand Landing Website

<https://mohammedshaibaaz.github.io/ember-cafe/>

- Built a café website centered on warmth, clarity, and intentional pacing rather than aggressive marketing.
- Implemented clean navigation, readable typography, and mobile-friendly layouts.
- Optimized for fast load times and usability on slow connections and small devices.

Personal Portfolio Website <https://mohammedshaibaaz.github.io/>

- Designed and built a professional portfolio showcasing frontend and UI-focused projects.

- Implemented dark/light theme system with persistence, responsive navigation, and accessibility features.
-

EDUCATION

Bachelor's of Engineering (2024 – 2028) – Artificial Intelligence and Machine Learning
